BUSINESS OVERVIEW

Omni is an Australian-owned delivery partner providing national security and critical infrastructure solutions to government and industry.

We support Australia's national interest by strengthening sovereign capability, protecting essential systems, and enabling secure, resilient operations across complex environments.

CAPABILITIES

Omni provides specialised capabilities designed to enable the successful delivery of national security and critical infrastructure outcomes. Our capability set brings together technical expertise, disciplined execution, and assurance-led delivery to support complex programs where performance, security, and accountability are paramount.

AEROSPACE

Omni Aerospace provides aviation services that support airworthiness, design, manufacture and certification and flight operations across a range of fixed and rotary wing platforms. Our teams work closely with customers and regulators to deliver safe, compliant and effective aviation outcomes.

- Maintenance, Repair & Overhaul (MRO)
- Engineering – Design, Analysis & Certification
- Manufacturing
- Aerial Operations & Imagery (ISR)
- Locations: Jandakot, WA and Caloundra, Qld

PROFESSIONAL SERVICES

Omni delivers high-calibre professional services that help government, defence and industry clients solve complex challenges, strengthen capability and achieve mission outcomes. Drawing on a workforce with deep operational, technical and strategic expertise, we provide skilled personnel and specialist teams across all domains and the full capability lifecycle.

Our professionals integrate seamlessly with client organisations, delivering trusted advice, program support and sustainable solutions in some of Australia's most demanding environments.

- Program Integration Partner
- Engineering and Systems Integration
- Logistic and Support Services
- Compliance and Accreditation Services
- Testing and Evaluation

PERSONNEL ASSURANCE

Omni provides assurance to clients' critical missions by providing end-to-end personnel vetting and psychological services for the workforce and suppliers. We are entrusted to protect organisational integrity and sensitive information, as well as exercising judgement on fitness to work within classified or restricted settings.

Our work helps to build the workforce that will be entrusted to protect Australia's national security.

CAPABILITIES

SECURITY CONSULTING

Omni helps organisations strengthen their security posture and achieve compliance with the Defence Industry Security Program (DISP). Our experienced practitioners work alongside clients to assess current security maturity, identify gaps and implement practical improvements across governance, personnel, physical and cyber security domains.

We provide trusted guidance that enables organisations to confidently engage with Defence and the broader national security sector.

SECURE FACILITIES

Omni designs and delivers secure facilities engineered to Australia's highest Physical Security Zone (PSZ) standards. Through our Secure Zone Security Construction and Equipment Committee (SCEC) and Emanation Security (EMSEC) consultancy services, we provide end-to-end expertise spanning design, construction, technical integration and accreditation.

Our team works closely with clients to develop secure environments that not only meet stringent security and compliance requirements, but also support operational effectiveness ensuring the people, information, capabilities and missions they protect can operate with confidence

- Physical Secure Zone Consultancy (Zones 2 – 5)
- SCIF (Sensitive Compartmented Information Facility)
- Secure Zone Maintenance

CAPABILITIES

TRAINING AND WORKFORCE CAPABILITY

Omni designs and delivers training programs that prepare individuals and teams to operate safely and effectively in high-risk, high-threat and high-pressure environments.

Drawing on extensive operational experience across defence, national security, emergency response and critical infrastructure sectors, our training solutions combine practical application with real-world expertise

- HEAT Training
- Personal Security Awareness Training
- Situational Awareness Training
- Trauma First Aid
- Counter – Elicitation Training
- Resilience and Leadership Training

CERTIFICATIONS

Quality is embedded across governance, delivery, and assurance, ensuring outcomes are achieved reliably, securely, and in alignment with the national interest.

SUSTAINABILITY & COMMUNITY

OUR COMMITMENT

At Omni, sustainability is more than just a word for us. It encapsulates our commitment to responsible progress as we grow as a company.

We are committed to ensuring that our core values of Respect, Trust, Agility and Humility guide our approach to everything we do.

We support local, national and global communities through direct support, quality partnerships and strong governance, with particular emphasis on the following areas:

LOCAL

We dedicate resources each year to deliver practical support to organisations and initiatives that do vital work to support our local communities.

INDIGENOUS

At Omni, we believe it is our responsibility to understand, respect, and observe the culture and heritage of Australia's first people. We are committed to promoting and supporting Indigenous cultures as a part of our operations, particularly in education, health and employment. We have also undertaken to integrate Indigenous businesses into our regular supply chains.

VETERANS

Founded by Veterans, we honour the service that former members of the Australian Defence Force, Police Services and Intelligence Community have contributed to the development of our society. As a Veteran Employer of Choice, we are dedicated to supporting the Veteran community by direct employment and through support and partnership with Veteran support agencies and initiatives.

ENVIRONMENT

We are committed to minimising our impact on the environment and maximising the effective use of our resources. To achieve a better future for all, Omni fosters responsible environmental behaviour across our workforce and with our partners.
