

AIRCRAFT PAINT CAPABILITIES

Omni is an Australian-owned business focused on delivering innovative defence, national security, intelligence and critical infrastructure solutions to further our national interest.

Our locally based, expert teams deliver cutting-edge technology and pioneering solutions in support of Australia's sovereign capability.

Omni is a leading aircraft maintenance and refurbishment company operating out of secure, purpose-built facilities on the East and West coasts of Australia. With decades of experience in the aviation industry, Omni is a trusted and proven partner that provides the very best service for your aircraft.

Our East Coast facility in Queensland is home to our Rotary Wing MRO department. It can provide everything from touch ups and repairs to specialist coating application and full-service update including reupholstery. With approved, certified and experienced aircraft painters, Omni delivers the highest quality results efficiently and professionally.
